City Superintendent – Riley Crookston
City Clerk/Treasurer – Shelley Reeves
Deputy City Clerk – Loy Raye Phillips

April 12, 2022

Dear Congressman Simpson,

The City of Grace is in the process of updating the city wastewater treatment plant. The plant hasn't been updated since 1985. With a small population of just around 950 people we are trying to keep the costs down for our residents. We have passed a bond for \$3.2 million dollars and have been approved for a loan from the Department of Environmental Quality, but with the rate of inflation and unforeseen equipment reaching its lifetime and needing to be replaced that may not be enough to update the plant in the way that we were planning.

Any support would be greatly appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Jackie Barthlome".

Jackie Barthlome
Mayor

RE: Grant for Sewer Project

To Whom It May Concern:

This letter is for support of the sewer project that the City of Grace has on their list of projects that need to be completed. The city officials have realized that the present system is 25 or more years old and has many things that need to be addressed to meet the updated codes that have been made of the time period that this system has been in place.

During these economic conditions, the officials are doing the best they can in finding ways to finance such a project, but the costs of the materials continue to be inflated faster than they can raise funds. They have looked at the possibility of reducing the project to just the main needs of the community but feel that this would be a band-aid to what needs to be done.

The community leaders do not want to raise the taxes on the members of the community due to the cost of this project and the burden it will put on the community.

Ireland Bank, a business in the community of Grace, is in full support of the city officials searching for alternative methods of funding such a project. Funding from such a source as this grant would be a great benefit in aiding the community to complete this project and allow the officials not to burden the residence with increased taxes to fund the project.

I thank you for considering the City of Grace for this grant.

Sincerely

Tom McBride
Manager/AVP

To Whom It May Concern:

The purpose of this letter is to show our support for the City of Grace and their upcoming sewer project. The City of Grace is in need of many updates and the sewer project should definitely be considered top priority. Any funding given would definitely help defray costs and keep expenses down for local businesses and patrons.

Sincerely,

Cassie Rigby

BALLOT QUESTION

City of Grace

SHALL THE CITY OF GRACE, IDAHO, BE AUTHORIZED TO INCUR AN INDEBTEDNESS AND TO ISSUE AND SELL ITS REVENUE BONDS IN AN AMOUNT NOT TO EXCEED \$3,200,000 TO PAY THE COST OF CONSTRUCTING IMPROVEMENTS TO THE WASTEWATER SYSTEM OF THE CITY, SAID BONDS TO BE PAYABLE SOLELY FROM WASTEWATER SYSTEM REVENUES, OVER A TERM WHICH MAY BE LESS THAN BUT WHICH SHALL NOT EXCEED FORTY (40) YEARS, AS MORE FULLY PROVIDED IN ORDINANCE NO. 2021-1?

The purpose for which the proceeds of the bonds will be used is for improvements to the wastewater system, to include improvements to waste treatment to meet federal requirements. The City currently has outstanding long-term indebtedness of \$1,928,247 paid solely from water system revenues. Since the bond will be paid solely from wastewater revenues, there will be no tax authorized on any taxable assessed value.

The interest rate anticipated on the proposed bonds is 2.0%. The total principal amount to be repaid over the life of the bonds is \$3,200,000; the total interest estimated to be paid over the life of the bonds is \$1,470,826; the total amount estimated to be repaid over the life of the bonds is \$4,670,826. The bonds will be payable over a term which may be less than but which will not exceed forty (40) years.
